Hi, Gary,
Ginny pulled info from the start of May Cooperage to compare – do you want us to look at any others? thanks

I looked at the report for CES and the date range in which those hours were spent covers about 1.5 months. So I went back to May Cooperage and did a date range for the first 1.5 months and have added those calculations to the spreadsheet (see columns F and G). I wanted you to look at it before we sent anything to Gary. I think I copied the formulas correctly but please check.
